#### **About the Unit**

The Programme and Solutions Management Unit (PMU) is responsible for coordinating and implementing the development programmes for all justice and home affairs (JHA) information systems and digital solutions entrusted to eu-LISA, including the interoperability architecture. As such, PMU is responsible for the evolution of existing IT systems and the development of new ones for the EU's JHA community, ensuring timely delivery in compliance with the relevant legal basis and stakeholder expectations.

To that end, PMU's programme and project management teams, together with designated solution experts, oversee the entire product development process from initiation, to build and until the developed products and solutions are ready for transition into operation. They are supported in this task by the Project Management Office (PMO), responsible for facilitating efficient project implementation through appropriate tools and agile project management practices.

PMU comprises three sectors: Home Affairs Programmes Sector (HAPS), Justice Programmes Sector (JUPS), and Solutions Expertise Hub (SOEH).

The Solutions Expertise Hub (SOEH) serves as the Agency's central hub for end-to-end expertise on JHA information systems and digital solutions entrusted to eu-LISA, both existing and under development.

The SOEH team comprises solution experts who are responsible for providing technical expertise and ownership throughout the entire lifecycle of IT systems and digital solutions, from initiation through the build process until the product's transition into operation. In this role, the solution experts act as the interface between cross-functional teams, providing high-level perspective and in-depth understanding of the related scope, to ensure that solutions are designed, developed, and implemented in accordance with the legal basis and stakeholder expectations. In addition, they are also responsible for delivering regular reports on the technical functioning of their assigned IT systems/digital solutions.

This task is delivered in close collaboration with respective project development teams under PMU's HAPS and JUPS, as well as eu-LISA's Business Relations Management Sector (BRMS) responsible for the business requirements, and with the Transition Management Sector (TRMS) to ensure smooth handover and entry into operation.
